I'm John!

I'm Chad!

Hello. Nice to meet you.

We are John and Chad Midnight, a Father and Son team based out of Edmonton, Alberta, Canada! Our 40+ year history in Hospitality, Events, and Real Estate sets the bar high for achievements and reputations to uphold.

Since our utility patent was issued in January 2018, we have perfected four prototypes, traveled across the world, pivoted once or twice, and made incredible friends along the way. This journey has taught us valuable lessons, provided exciting opportunities, and resulted in plenty of long nights.

We are proud to achieve this sustainable future, and appreciate how much there is yet to learn. We are thrilled to collaborate and share this success with you. Together, we can truly change the world.

This was our
prototype!

**Imagine water
this
fresh.**

**Enjoy
anywhere.**

**Lead
social
impact.**

**Inspire
everyone.**

**Because our future is
better with **Aqueduct.****

Aqueduct

Aqueducts were used to adapt the landscape to our advantage. Now we must adapt cities to benefit the landscape and nature instead. Aqueducts were built for carrying water to areas which have water scarcity. We modernize and replicate this mission with bulk packaged fresh water and refillable vessels.

The aqueduct signifies a bridge moving forward in a new direction for humanity. Transitioning from single-use plastics and bridging the gap to better solutions. We supply water to people in a new way, providing inspiration to challenge old beliefs; forging a new beginning.

Associations

Aqueduct Water Systems in the U.S. and Canada do not contain dioxin, phthalates, or BPA.

We're honored to be trusted at the 2022 NFL Honors Red Carpet at So-Fi Stadium in Los Angeles!*

Proceeds benefit local and global groups with our technology. Who's more supportive than you?*

OUR GUARANTEE

AQUEDUCT WATER SYSTEMS LTD., ("VENDOR") WARRANTS TO THE ORIGINAL PURCHASER OF THIS DISPENSER, AND TO NO OTHER PERSON, THAT IF THIS DISPENSER IS ASSEMBLED AND OPERATED IN ACCORDANCE WITH THE PRINTED INSTRUCTIONS ACCOMPANYING IT, THEN FOR A PERIOD OF ONE (1) YEAR FROM THE DATE OF PURCHASE, ALL PARTS IN SUCH DISPENSER SHALL BE FREE FROM DEFECTS IN MATERIAL AND WORKMANSHIP. VENDOR MAY REQUIRE REASONABLE PROOF OF YOUR DATE OF PURCHASE FROM AN AUTHORIZED RETAILER OR DISTRIBUTOR. THEREFORE, YOU SHOULD RETAIN YOUR SALES SLIP OR INVOICE. THE LIMITED WARRANTY SHALL BE LIMITED TO REPAIR OR REPLACEMENT OF PARTS, WHICH PROVE DEFECTIVE UNDER NORMAL USE AND SERVICE AND WHICH VENDOR SHALL DETERMINE IN ITS REASONABLE DISCRETION UPON EXAMINATION TO BE DEFECTIVE. BEFORE RETURNING ANY PARTS, YOU SHOULD CONTACT VENDOR'S CUSTOMER CARE DEPARTMENT USING THE CONTACT INFORMATION LISTED BELOW. IF VENDOR CONFIRMS, AFTER EXAMINATION, A DEFECT COVERED BY THIS LIMITED WARRANTY IN ANY RETURNED PART, AND IF VENDOR APPROVES CLAIM, VENDOR WILL REPLACE SUCH DEFECTIVE PART WITHOUT CHARGE. IF YOU RETURN DEFECTIVE PARTS, TRANSPORTATION CHARGES MUST BE PREPAID BY YOU. VENDOR WILL RETURN REPLACEMENT PARTS TO ORIGINAL PURCHASER, FREIGHT OR POSTAGE PREPAID. FOR UNITS PURCHASED OUTSIDE OF THE CONTINENTAL CANADA AND US REGION (LIMITED TO HAWAII, ALASKA, MEXICO, CARIBBEAN ISLANDS), DISPENSERS DETERMINED TO BE DEFECTIVE BY THE VENDOR SHOULD BE RETURNED OR EXCHANGED AT THE ORIGINAL POINT OF PURCHASE WITHIN THE WARRANTY PERIOD.

THE LIMITED WARRANTY IS IN LIEU OF ALL OTHER EXPRESS WARRANTIES. VENDOR DISCLAIMS ALL WARRANTIES FOR PRODUCTS THAT ARE PURCHASED FROM SELLER OTHER THAN AUTHORIZED RETAILERS OR DISTRIBUTORS. AFTER THE PERIOD OF THE ONE (1) YEAR EXPRESS WARRANTY, VENDOR DISCLAIMS ANY AND ALL IMPLIED WARRANTIES, INCLUDING WITHOUT LIMITATION THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. FURTHER, VENDOR SHALL HAVE NO LIABILITY WHATSOEVER TO PURCHASER OR ANY THIRD PARTY FOR ANY SPECIAL, INDIRECT, PUNITIVE, INCIDENTAL, OR CONSEQUENTIAL DAMAGES. VENDOR ASSUMES NO RESPONSIBILITY FOR ANY DEFECTS CAUSED BY THIRD PARTIES. THIS LIMITED WARRANTY GIVES THE PURCHASER SPECIFIC LEGAL RIGHTS; A PURCHASER MAY HAVE OTHER RIGHTS DEPENDING UPON WHERE HE OR SHE LIVES. SOME JURISDICTIONS DO NOT ALLOW EXCLUSION OR LIMITATION OF SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES, OR LIMITATIONS ON HOW LONG A WARRANTY LASTS, SO THE ABOVE EXCLUSION AND LIMITATIONS MAY NOT APPLY TO YOU.

THE LIMITED WARRANTY DOES NOT COVER ANY FAILURES OR OPERATING DIFFICULTIES DUE TO ACCIDENT, ABUSE, MISUSE, ALTERATION, MISAPPLICATION, IMPROPER INSTALLATION OR IMPROPER MAINTENANCE OR SERVICE BY YOU OR ANY THIRD PARTY, OR FAILURE TO PERFORM NORMAL AND ROUTINE MAINTENANCE ON THE DISPENSER, AS SET OUT IN THE USER'S MANUAL AND GUIDE. IN ADDITION, THE LIMITED WARRANTY DOES NOT COVER DAMAGES TO THE FINISH, SUCH AS SCRATCHES, DENTS, DISCOLORATION OR RUST AFTER PURCHASE.

91%
**Massive
Pollution**

0%
Pollution
Hydrate, refill,
rinse, repeat.
Reuse, simple.

Why Aqueduct?

**Solve problems you have or didn't know you had.
We provide solutions and create opportunity for
unimagined success in new market categories.**

People. Planet. Profit.

1

Salable refills

We all have our favorite reusable bottle. Why are there zero salable refill options for revenue generation? Imagine people showcasing your branded refillable vessel in their daily routine. More reusable bottles used = lower Carbon output. Would you prefer tap water or fresh Mineral Spring Water? Sparking or still?

+2000% profit markups

For the first time ever, dispense large volume fresh quality water (like Mineral Spring Water) commercially with 2000% higher profit margins over single use. 91% of all single use are never recycled. Imagine your sustainability being rewarded with revenues.

2

3

Increase access and convenience

Two thirds of the world's population suffer from water scarcity. For the first time ever, enjoy quality fresh drinking water anywhere! Dispense power-free or utilize powered dispensers in every off grid location for any application (chill/heat/carbonate/flavor). Up to 18x more volume than a standard water cooler.

High ROI to scale

Covid disrupted operations and revenues. Secure budgeting and forecasting is critical to your business' future. At 100 servings sold per day, your ROI is only 7 days! What would you do with over \$150,000 extra annual net profit?

4

Go big and Waste less!

100% designed and manufactured in Canada.
Zero compromise on materials or construction quality.
First-class functionality and trendsetting performance.

There's only one Aqueduct. Earn prestige, spread influence, and enjoy the advantages. Choose purpose.

Meet people where they are, and dispense quality water we respect, into refillable vessels everyone trusts.

	COST	MARKUP	REVENUE	PROFIT
1L SINGLE USE	\$0.62	706%	\$5.00	\$4.38
1L IMPORTED SPARKLING	\$2.20	127%	\$5.00	\$2.80
1L FILTERED TAP	\$0.00	0%	\$0.00	\$0.00
1L AQUEDUCT WATER	\$0.24	1983%	\$5.00	\$4.76

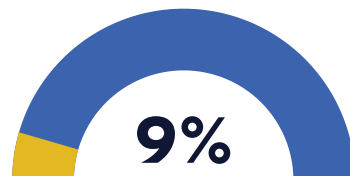

Based on sales price of \$5.00 per 1 liter sold.
Don't lose out on these fantastic profits!

ZERO PLASTIC POLLUTION

Did you know?

8.3 billion metric tons of single-use plastic has been produced, ONLY NINE PERCENT has been recycled.

Choose Aqueduct to save money, save lives, and save the planet. Achieve a circular economy!

Which Aqueduct is right for me?

All units may be installed with third party accessories to increase utility, convenience, efficiency, and profit. See page 28 to select yours.

Available for Purchase, Rental, and Licensing.

Why all the plastic?

I thought plastic was the worst option?

Greenwashing and misinformation! Our products are designed with safe HDPE.
Going "plastic free" is scientifically proven to increase environmental harm.
plasticsparadox.com

How is Aqeduct better than 24 packs of bottles?

Five gallon jugs deposit fees ensure reclamation to sanitize, reuse and recycle.
Going bulk costs you and the planet less!
Aqeduct: \$0.24/1 Liter [0% pollution]
Single Use: \$0.62/1 Liter [91% pollution]

How is Aqeduct better than filtered tap water?

Tap water is the greenest option, however not safe to drink for millions of people!
Would you prefer purchasing bottled tap water or mineral spring water?

Isn't Aqeduct the same as a large volume container?

Close, same idea! Large containers of water will become stagnant and gross after only a few days. Aqeduct uses gravity to cycle water so your drink is always fresh!

How does it work?

Gravity dispenses water from each jug sequentially, zero power needed.
Power adds customization and convenience to chill/heat, carbonate, or flavor your favorite local water!

Why should I care?

By choosing us, you join our vision to waste less and hydrate more. Aqeduct is a globally recognized eco-friendly water movement creating a Reuse & Refill circular economy that inspires behavior change, grows awareness, and partners strategically by financially incentivizing waste elimination and water security. Profit with purpose!

This seems expensive.

I'm not sure if it is worth it?

Our products are made with quality in mind and include a 1 year warranty for assurance. We have multiple payment options available. Plus, your ROI is only 6 days!
[150 sales of \$5.00 1 Liter per day]

I'm not purchasing to sell water.

Is Aqeduct still valuable to me?

Yes! Aqeduct has value to increase sustainable hydration wherever water is provided.
At home? Enjoy convenience and affordability with fresh water plumbed to every room and appliance.
Seeking off grid solutions? Increase convenience and safety for hydration everywhere.
Need safe water for disasters? Quickly deploy large volumes strategically, trusted for any duration.

How will it scale? Can I benefit?

Our design is simple, easy to use, and affordable to scale. We offer distribution rights, licensing, or simply purchase orders to fill your market niche.
Water suppliers and their clients benefit from Aqeduct by increasing water consumed conveniently.

I don't see a way to measure refills?

Aqeduct is elevating the customer experience with third party accessories.
Imagine fresh water, connects to your wi-fi, and automatically reorders stock when it runs low. Imagine giving a perfect pour every time, the way bottled water intended, and tracks each pour with a smart app!

What about Covid and touching refillable vessels?

Health experts agree that reusable cups, mugs, and bottles are safe from Covid contamination. Numerous quick serve restaurants are already adopting new reusable programs!
